DMDT for UV2-A

DMDT for UV3-H

A heatmap visualization showing the importance of 1000 features for 1000 different models. The color scale ranges from dark purple (low importance) to yellow (high importance). The diagonal elements are bright yellow, indicating high self-importance. The off-diagonal elements show varying degrees of importance, with a gradient of colors from purple to yellow.

DMDT for UV7-H

DMDT for UV7-A

DMDT for UV8-H

Heatmap showing the relationship between the number of children and the number of children in the household. The x-axis is 'Number of children' (0-10) and the y-axis is 'Number of children in the household' (0-10). The color scale ranges from 0.0 (dark purple) to 1.0 (yellow). The diagonal is bright yellow (1.0). The plot shows a strong positive correlation, with values decreasing as the number of children increases.
